DETAILED ACTION

The following action is in response to the amendment filed for application 10/693,265 on November 8, 2004.

Allowable Subject Matter

Claim 10 is allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show the power transmission as claimed, and particularly including two torque-transmitting mechanisms disposed in a first space, or any of the combinations of the remaining torque transmission mechanisms, including the remaining structure of claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kasuya has been cited to show similar transmission clutch and transmission configurations.
